- \$ 1,218 in investment income

**College Scholarships — FOCRLS awarded scholarships totalling \$71,750:** \$69,250 in scholarships distributed to 41 members of the CRLS Class of 2021 and \$2,500 remitted to three alumni

**Unsung Heroes Awards**, sponsored by FOCRLS and organized by the CRLS Deans of Students, were sent to 32 students who have emerging leadership qualities noticed by faculty and staff

**Falcon's Market — FOCRLS provided \$31,493** in funding to address food insecurity and other needs among CRLS families

**Faculty Distinction Awards** were produced and presented by FOCRLS to four teachers nominated by the graduating class for their positive influence

"Thank you so much to FOCRLS for choosing me to be the recipient of this prestigious award! I would like to thank all the donors and organizers of FOCRLS for this wonderful and amazing opportunity. This scholarship will definitely help alleviate my college financial stress and will provide me with more time to focus on my studies and college life. I am majoring in mechanical engineering because I love the concept of bringing my ideas into reality to solve real-world problems. There are many problems to be solved in today's world and I believe that people like me who have the privilege of education have the power to tackle these challenges."

Ashrafur, CRLS Class of 2021 FOCRLS awardee of the "100 by 100" Cambridge Business Community STEAM Scholarship for Engineering, now enrolled at Northeastern University

## Programs Active in FY20-21

### College Scholarships

**Friends of CRLS presented a total of \$71,750 in College Scholarships during FY 2020-2021.**

We presented 47 scholarships totaling \$69,250 to 41 members of the CRLS Class of 2021. This sum is a boost of nearly 26% over what we presented to the CRLS Class of 2020.

The generosity of sponsors and donors made this welcomed expansion possible.

Individual award amounts were increased for nine of our long-standing scholarships: Mary Frances Monti Scholarship, Elaine Schear "Voice of the First Generation" Creative Writing Scholarship, Dr. Christopher Saheed Future Educators Scholarship, Aurora M. (Ciccarello) Leydon Memorial Scholarship, Juliette Kayyem & David Barron Scholarship for Children of First Responders, Earl M. Gardner Scholarship, Patrick Ewing Scholarship, and two Dr. David A. Link Scholarships for the Health Professions. We were also able to present an additional Maria J. Tavares Memorial Scholarship.

Four new sponsors added six scholarships: Tutoring Plus Scholarship, Cambridge Day Sue Reinert Scholarship for Journalism, and two each of John D. Zagarella, Sr. Memorial Scholarships and Richard S. Gilreath Memorial Scholarships for the CRLS Track & Cross Country Community.

Scholarships to alumni totaled \$2,500. We remitted two installments for "It Takes a Village" Multi-Year Scholarships. Additionally, we administered a targeted donation for a supplemental scholarship to the 2020 awardee of the CambridgeSeven STEM Scholarship.

Awardees meet academic, financial, and college enrollment requirements and demonstrate scholarship-specific criteria through applications, essays, and transcripts.

**"I have big goals of owning a company that has strong ethical values and impacts my community for generations to come, and my first step in making that happen is to attend Boston University and study at the Questrom School of Business. The Rose & Victor Rifkin Family Scholarship and Charlene Holmes Memorial Award are helping me reach that goal, and I'm so honored and grateful! Thank you!"**

Through that hard work, I've also learned a lot about myself. I know I can do anything if I put in the time and effort. I plan to continue to study computer science and computer engineering. I want to work while I'm in college so I can learn more and help pay for my education. This scholarship will help me with my financial obstacles and give me more time to focus on my schoolwork. I took the initiative to research the different possibilities of a career in medicine. I spent one summer volunteering at Boston Medical Center and had an internship with Novartis, where I learned about medical research and performed my first experiments. These experiences reinforced my desire to study medicine and my confidence to do so. The challenges I have faced have not stopped me from trying. I feel excitement starting this new chapter of my life!"**

Through the opportunity to be a teacher's assistant, group projects, and activities, CRLS prepared me for the workplace and life. At CRLS the teachers prepared me academically by giving me the opportunity to prove that I can be successful whether I am remote learning or in-person learning. "My goal is to become a pediatric nurse practitioner. I really want to help children, especially black children, and their mothers. There are many disparities in healthcare for black women. It's a basic human right for everyone to get the care they need, and I want to be there to enact it. I want to help people in vulnerable situations and give them hope and help them have strong and healthy futures. I want to leave a legacy of black excellence in the healthcare field."

**"Every successful person seeks more knowledge to become better."**

**Schama '21**

**Schama, CRLS Class of 2021 FOCRLS awardee of the Patrick Ewing Scholarship, now enrolled at UMass Boston**

**"My educational and career plans will follow the path of law and/or politics and center around social justice, because through that, I can achieve my personal goals of helping others. I am drawn to social justice because I feel I can make a real change, and I want every bit of knowledge from my college experience to back me up when I go to do so. The more I know about it, the more change I can make for the betterment of the world around me. I hope that as I learn more, I am able to fulfill that goal in different ways and encourage others to do the same."**

## Unsung Heroes

FOCRLS sponsors the Unsung Heroes program, which celebrates students nominated by teachers and staff members as emerging learners who play a positive role in the CRLS community. During the 2020-21 school year, there was one celebration with 32 heroes recognized (2 per grade, per learning community) with a virtual ceremony held on February 5. Honorees received certificates and Falcon logo watches. (If you were an Unsung Hero in February 2021 and did not receive your watch, please email Dean Prince at [jprince@cpsd.us](mailto:jprince@cpsd.us).)

Honorees are selected for excellence or notable improvement in one or more of the following: Academics, Athletics, Attendance, Character, Citizenship, Community Service, Contribution to a Positive School Climate, Leadership, Stewardship, and Studentship.

**"One of my biggest goals is to create something using technology that will reduce carbon monoxide, nitrogen dioxide, lead, and other harmful chemicals present in the air that are harming innocent people. Another goal is to reduce pollution by coming up with eco-friendly alternatives to things that we use in our day-to-day lives that contribute to pollution. People talk about going to Mars, but I think we can make Earth better if we all contribute a little towards protecting our environment."**

**In addition to being an Unsung Hero, Shahnawaz, now enrolled at Boston University, is a 2021 double FOCRLS scholarship awardee, receiving the "100 x 100" STEAM Scholarship for Technology and the Elizabeth Vernon Scholarship for Volunteerism & Community Service.**

## Falcon's Market Fiscal Sponsorship

Although Falcon's Market is not a FOCRLS program, but rather a CRLS one established and run by CRLS family liaison Greta Hardina (pictured here in Falcon's Market with FOCRLS mascot Friendly the Falcon), FOCRLS joined the fight against food insecurity and other insufficiencies among the CRLS community in August 2019 when some of our donors began contributing funds targeted to the cause.

During FY20-21, FOCRLS disbursed \$31,493 in funds for low-income CRLS families: \$27,590 for Market Basket gift cards; \$1,625 for affordable housing laundry machine use; and \$2,278 to subsidize prom-related activities.

## **Faculty Distinction Awards**

For the 15th year – bringing the total since 2007 to 60 awardees – FOCRLS sponsored the Faculty Distinction Awards, recognizing four outstanding educators nominated by the graduating class for having the most positive influence on their high school experience. We produced framed certificates and held a mini ceremony on Tuesday, June 22 outside the Fitzgerald Theatre, where Principal Damon Smith presented the awards to the honorees who were able to attend.

*(L-R) awardee Joshua Landwehr, CRLS Principal Damon Smith, and awardee Monica Murray*

Joshua Landwehr, a teacher of history and social studies at CRLS since 2007, is appreciated by students for his cheerfulness and ability to motivate students. He earned his Bachelor of Arts degree from UMass Boston (2007) and his Master of Education degree from the Harvard University Graduate School of Education (2008). Mr. Landwehr said, "My sincere wish for the graduates is that one day they can do what they love and love what they do."

Monica Murray, a teacher of drama and film studies at CRLS since 2002, is appreciated by students for her enthusiasm and moral support. She holds a Bachelor of Arts degree in education from Western Washington University and a master's degree in theatre education from Emerson College. Said Ms. Murray, "I have been so impressed by the students' kindness, bravery, and resilience this year and throughout my career. I can't thank them enough for making me a better person and teacher."

Dana Gauthier, who has been a high school English teacher for fifteen years, is appreciated by students for her creativity and empathy. She holds a bachelor's degree in English literature from Colgate University (2003) and a master's degree in teaching from Boston University (2005). "I feel incredibly fortunate to be part of the CRLS community and will especially miss this senior class, who greeted me with open arms and hearts when I arrived in October of 2019," said Ms. Gauthier.

William McDonald, a teacher of biology and environmental science at CRLS since 2017, is appreciated by students for his kindness and helpfulness. A graduate of Somerville public schools, UMass Boston, and Boston University (1990), he has taught in Cambridge for 27 years. "The reason this recognition means so much is that it was determined by the students," said Mr. McDonald of his Faculty Distinction Award.

## Donations and Gifts

**Thank you!  
Your contribution makes a lasting difference.**

### Summary of Giving

In FY20-21, FOCRLS received \$171,647 in donations from hundreds of generous contributors in, around, and associated with Cambridge who want to brighten the future for our students and our whole community:

- \$128,983 from individuals and families
- \$ 42,664 from organizations, including businesses, corporations, foundations, and the City of Cambridge

### **FOCRLS Focus**

We received \$20,000 in anonymous donations from a family wanting to provide more CRLS students with opportunities that will expand their educational experiences. We are deeply thankful that the family selected FOCRLS to make the best use of their generosity.

We are very grateful for the education our children received at CRLS and want to give back to the school in whatever way we can. We appreciate the work that FOCRLS does to reach out to students with different backgrounds and needs, and we hope our gift will enrich the excellent programs already in place.

— Anonymous Family of Donors

"This scholarship of \$1,250 moves me one step closer to affording a college education and experiencing all of the opportunities that college has to offer. If I were to work part-time for 20 hours a week, I would have to spend a month earning that money. Over that month, I would have lost time on homework and studying, time to sleep, and time to participate in clubs and volunteer work. If I were to lose time studying and sleeping, I'd lose points off exams, putting me at risk of losing academic scholarships. My time will be devoted not only to academics but also pursuing community involvement through school clubs, volunteering at local nonprofits, and continuing a role I held in high school as a science and math tutor."

"My main goal is to become a teacher, as they guide our future. I hope to teach middle school mathematics, promote a love for learning, and make the process enjoyable for students. The CRLS Teaching Assistant program allowed me to help the teacher in various organizational and facilitator roles, create and present my own material, and communicate with students in person and online. I want to inspire students to be their best selves and assist them in recognizing their full potential."

## **Fundraising**

### **Appeal Letters**

FOCRLS composed and mailed two appeal letters, one in autumn (holiday) and one in spring (graduation), to the wider CRLS community: parents/guardians of students in grades 9-12, parents/guardians of alumni, alumni, Cambridge homeowners, and other previous contributors. We also emailed the appeals to our 5,000+ email contacts through our listserv and made posts on our social media accounts.

The autumn appeal drew \$33,616.76 in contributions, and our spring appeal brought in \$10,125.90, for a total of \$43,742.66. These contributions are all listed under Donations and Gifts.
